

Specialty Pharmacy Medications

This list is up to date as of October 1, 2012.

Blue Cross Blue Shield of Massachusetts has established a designated network of retail pharmacies for certain specialty medications. The following is a list of medications that must be obtained through one of the pharmacies in this network. Network pharmacies offer convenient prescription delivery and the added support that members taking these specialized medications may need. You can find the latest information about your medications and specialty pharmacy contact information by visiting www.bluecrossma.com/pharmacy.

Injectable Medications

Injectable medications are available from specialty pharmacies: AcariaHealth, Accredo, CuraScript, and CVS Caremark, unless otherwise noted. Medications noted with an asterisk (*) are also available from OncoMed.
